# BWImplement

## Vineyard Soil Finisher

Our Vineyard Soil Finisher uses chisel shanks to bust compaction and increase water penatration. At the same time the spiral reel incorperates and flips the soil and levels it back out. Then the loose ring roller braeks the left over clodes and leaves a smooth finish leaving a fine seed bed for cover crop. The ring roller can be replaced with a 20" rear roller for a smoother fine finish in a vineyard or orchard. B.W. Implement will make any changes a grower would like. You tell us what you want and we will make it happen!!!

We have
been manufacturing
**DIRT SMART**
products since 1948

288 W. Front St. - Buttonwillow, CA. 93206 - Ph: (661)764-5254 - Fax: (661)764-5253 - www.BWImp.com

| Model # | Overall Size | No. of Shanks | Cut Width | Crumbler Working Width |
|---|---|---|---|---|
| GVC-60510 | 5' 8" | 5 | 3' 3" | 5' 0" |
| GVC-80710 | 7' 3" | 7 | 5' 0" | 6' 7" |
| GVC-100910 | 9' 0" | 9 | 6' 7" | 8' 3" |
